Board rule 21 NCAC 02 .0217 ARCHITECT EMERITUS states:

Resident architects who have been registered in this state who are retired from active practice or other related professional activities in any jurisdictions whatsoever, may apply for "Emeritus Status" by submitting a form provided by the Board showing compliance with the requirements of this Section. "Retired" means that the architect no longer practices architecture in that he/she no longer seals and certifies documents with his/her seal or otherwise offers to practice or practices architecture as defined in G.S. 83A-1 as amended. Nonresident architects who have been continuously certified by NCARB who are retired from active practice [or other related professional activities] in any jurisdictions whatsoever, and who are "emeritus", inactive or retired in every other jurisdiction in which they are licensed may also apply for "Emeritus Status" by submitting a form provided by the Board showing compliance with the requirements of this Section. Any such "architect emeritus" must renew that status on forms provided by the Board on or before the first day of July in each year. Any reference to an architect on "Emeritus Status" on any letter, title, sign, card or device shall list such architect as "Architect Emeritus".

The honor of "architect emeritus" status is not to be used as a way to avoid compliance with the Board's rules on continuing education.

I certify that I have read the North Carolina Architectural Laws and Rules and that I have read and understand the information as presented above. I certify that I am completely retired from the practice of architecture and am not offering or rendering architectural services in the State of North Carolina.
